I would like to move to your country because I am searching for new challenges and new motivations.

Moreover, I would like to work with different cultures because I think this is the best way to grow, professionally and personally.

I think that such an experience could really enrich my professional perspectives.

I'm looking forward to be chosen, besides the fact I'm ready to start from January 2019.

I have the driving license.

Thank you for your time and for a kind response.

Sincerely,

Simona Catalano
